3 months or longer, per month.....\$ .50  
By Carrier in City of Waco.....\$ .75  
Per month.....\$ .75

Notice to Subscribers.  
Delivery routes in the city of Waco are in the hands of independent carriers who buy their papers at wholesale prices. Subscriptions accounts are due them, not the Waco Morning News. They are under heavy bond, not only to give the best delivery service, but to pay for their papers each month. Their remuneration is the difference between the wholesale price and the retail price which they receive from subscribers. This margin of profit is such that they can not afford to extend credit except monthly. They are not required, and are advised against, delivering the paper to anyone who does not pay in accordance with the above subscription terms. These carriers are all earnest, hardworking young men and they will appreciate any courtesy shown them.

The Morning News should be delivered throughout the City of Waco by 6:55 a. m. and subscribers failing to receive the paper at this time will confer a favor by phoning the circulation department, both phones 1132, and a copy will be sent by special messenger.

Traveling Agents.  
Following are the traveling agents of the News who are authorized to solicit and receipt for subscriptions, advertising, etc.: W. Lewis, E. E. Long.

## THE EXPOSITION IN LONDON.

The plan of a dual exposition of American and British products was first definitely suggested at a meeting of the American Society in London in 1908, at which the late Ambassador Reid presided. "It has been borne in upon a good many of the American residents in London engaged in business here," the ambassador said then, "that they see under their eyes the first opportunity in the history of the world as far as international exhibits are concerned of having one ready on time with the buildings already constructed and with nothing to be done but to get manufacturers ready to exhibit to come in and take possession."

From time to time since the project has been discussed by members of the American Society in London, and has culminated in a decision that the centenary of next year would be the proper occasion, and Mobile Item thus outlines the event:

In London, the people of the United States and Great Britain will get together in an exposition that promises to go far beyond anything of the kind in which they have been interested heretofore.

The year 1914 will bring the centenary anniversary of the signing of the treaty of Ghent, which has resulted in one hundred years of peaceful and friendly relation between the two countries, and it is proposed to recognize this anniversary in a way that shall fittingly commemorate its importance as well as illustrate in a definite way just how influential the two countries have been in the material progress of the world.

The idea of a practical demonstration to commemorate as well as to celebrate this one hundred years of peace, has taken root in a way to ensure unusually interesting results, and the Anglo-American Exposition, as it will be called, has assumed an aspect that promises to unite the two nations more closely than ever.

It will be an occasion of joining hands across the sea after a fashion never before attempted, and the scope of the undertaking provides for exhibits that will illustrate what the United States and the United Kingdom have done for the world in every branch of industry, art, science, and education, and will include a historical summary of the progress of the two countries for a century.

### Tut, and Tut!

The island's most famous men were spoken to in the matter of naming the new Philippine commission.—Letter from Manila.

Careless correspondent. Nowhere has it been recorded that there were overtures to the Hon. Archibald Aguinado, statesman, soldier, patriot, Democrat and authority on the menace of a surplus population. A very, very famous Filipino was ignored utterly.

The attorney general's office has issued an opinion that has an end in the public safety. It is advised that a person who claimed to have practiced medicine in Texas prior to 1885, but had not graduated from medical college and had not been licensed by any State board, and who has since 1885 followed the barbers' trade, may not practice medicine in Texas without regular examination by the State board. Apparently our legal department does not recognize the close alliance of barbering and surgery.

And having in mind the Pankhurst, we think there should be a stiff tax on incomes as well as on incomes.

## NOT EVEN AN HIATUS IN MAKING ARMAMENTS.

Sometime ago we noted that in the tentative program for the next conference at The Hague there was not much promise that the conference would take the view that world disarmament is anything like a near prospect and devote its sessions wholly to contriving at world peace, as many have forecasted; for the program deals largely with means for debilitatizing as much as possible the course of warfare on land and sea. The program was announced subsequent to the original proposal by Mr. Winston Churchill, first lord of the British admiralty, to the German government that both England and Germany postpone their projected increase in navies for a twelvemonth. It was our recollection that this proposal was accorded a most frosty reception, and that we determined, therefore, there was less reason than ever to think that world disarmament would be begun definitely within our own time. Thus in certain comment by Atlanta Journal, in an able discussion of Mr. Churchill's "interesting peace plan," there is news for us. For the Journal says that "a similar suggestion put forth months ago was rather well received in Germany," and there is reason to surmise that something in the nature of a diplomatic understanding between the two countries in this regard has been reached, or at least is developing.

The Journal classes this proposal as the most definite yet made toward a suspension of the international war game. But there have been very direct proposals for entire cessation of the game, most of which have gone unheeded as wonderful dreams. Mr. Churchill's is direct enough, of course: "The naval program of Great Britain calls for the building of four battle-ships next year, and that of Germany for two battle-ships. Mr. Churchill, speaking for his own government, says to Germany in effect that if she will postpone her navy increase for a year, England will do likewise. Both nations would thus be saved millions of dollars and both would remain relatively as strong as they are now. It is considered improbable that the first lord of the admiralty would have made such an offer had he not had some assurance that it would be favorably entertained."

We concede that, certainly. But we are again doubtful of its success and even of its general reception, nationally, despite Mr. Churchill's assurances. When he first proposed something of this sort, there was a deal of public discussion that did not hesitate to remind that the German invasion "boogy" for England was really no "boogy." There was reminder, too, that the advent of the United States is second in the naval array of the world, and the intention of this nation to persist in its policy of two new men of war periodically if it could not get more, would hardly encourage a great power of Europe to permit its own naval armament to lapse. There is strife in the world—on the European and American continents. Japan and the Philippine position are still closely watched. There can be no other view of the Chinese republic than that it is a great experiment—and there is no Monroe Doctrine for the Orient. Mexico has assumed a place of importance in international concern, and this concern is growing rapidly by reason of the declared attitude of the United States toward pacification. Turkey still figures as the pivot in the balance of power situation and alliances. The chief international questions considered, we cannot see how the world may expect that Germany, with whom armament for offense and defense and colonial policing is almost the be-all and end-all of government, will subscribe to an agreement for an hiatus in naval increases.

### A STUDY OF THE "BEEF FAMINE."

"The need in America for more food is imminent; more food and new processes for preparing foods" Mr. Honore Wiltze writes, in Harper's. "Any householder does not need to read the newspapers or magazines to learn that food prices are advancing rapidly. There are many causes. Undoubtedly part of the high prices is due to the middle man and to the stupid and greedy methods of preparing and handling. But, just as surely, a very important cause of the high price of some of the necessary foods is their scarcity. Of no food is this truer than of beef and of mutton."

Since the beginning of 1907, Mr. Wiltze cites, the number of beef cattle in the United States has decreased from over fifty-one millions to thirty millions and the number of sheep from fifty-three to fifty-one millions. In this same period the population has increased by ten millions. The great ranches of the West are giving up cattle raising. Their great ranges are being cut up into farms for the crowding populace. Housekeepers have grown a little panic-stricken. "What shall we eat," they exclaim, "when beef becomes out of the question?" Most of the effort of people who have seen the menace has been toward inducing the farmer to raise more beef cattle. This is fundamental.

ally good policy. But Dr. Alsburg has viewed the problem from another angle:

"The exploitation of our waters as a source of food," replies the doctor, "belongs to the Bureau of Fisheries until sea food or fresh water food passes into interstate commerce. Then we over here become interested. It is then in the control of the Department of Agriculture to which our bureau belongs. And let me tell you that this department has a deep interest in fish food other than as an article of interstate commerce and other than a mere edible. Every pound of food taken from the sea relieves the land of producing a corresponding amount of meat. This releases so many more acres to the production of fruit and grain. Every pound of food produced on land uses up some of our soil fertility. Sea food is a net gain to the land. And it furnishes fertilizer to the land, directly enriching the soil."

The work of the department does not rest with the increase of our fish supply. It plans to stop the wanton destruction of fish in the spawning season. The shad industry is now entirely dependent on artificial perpetuation by the bureau of fisheries. Mackerel and halibut are in danger of being destroyed. The bureau of chemistry will start a campaign regarding the packing, marketing and refrigeration of fish food which up to now has been very little investigated. Facts like these will be forced on fishermen and the public; fish caught by gill nets and allowed to die slowly under water decompose easily, as also do fish landed alive and allowed to die slowly. Fish killed immediately after catching keep the best and their flavor is better. Fish should not be kept in a temperature over 25 degrees Fahrenheit, but oysters should not be frozen. Oysters deteriorate very rapidly when taken from the water, especially when in spawn, though they are considered to be most palatable when in spawn.

The widespread and growing fear that the oyster is a source of disease and is not a safe food is undoubtedly one of the many factors that adds to the high cost of living. Oysters should be plentiful, cheap and much eaten. Public opinion to the contrary, the great bulk of oysters sold are wholesome. The number of beds where pollution is even possible is relatively small. The department of agriculture wants to stimulate the production of oysters and is planning a special oyster campaign. Thousands of acres of shallow waters are available all along our seaboard for oyster beds and the oyster-producing possibilities of the gulf States have scarcely been touched. Dr. Alsburg's ideal is not to step with punishing the offender. People must be protected, of course, from tainted oysters. But in getting after the wrong-doer, the chief proposes to aid all the producers of wholesome oysters to increase their business. This idea of helpfulness and co-operation will go a long way toward increasing not only the oyster business, but the fish industry in general.

### Superfluous Socially.

Mr. Arthur T. Hadley and Mrs. Hadley are at the Manhattan hotel.—"Society note" in New York Herald.

Meaning Arthur Twining Hadley, A. B. A. M., LL. D., Ph. D., president of Yale university. But "Who's Who" material is not the best material for fabricating a snappy column of society notes. More interesting, far, were Dr. Hadley the owner of a winner of blue ribbons at the horse shows.

It is estimated that more than 50 thousands have been killed in Mexico in the battles and skirmishes of the past three years. The dispatches term this an "appalling casualty list." It would be appalling in earnest if the casualties of raids, neutrality law violations, stabbings and shootings in the back and the gross results of the operation of that villainous fugitive "law" were known.

### Too Conservative.

The final verdict on Huerta's act depends upon its consequences. A dictator ship with wisdom and strength in equal proportions probably would be the best thing that could happen to Mexico at the present time.—Philadelphia Bulletin.

Strange, but there are even American newspapers that assume an "hope for the best" attitude toward the disruptive dolings of Huerta. Small need to await the consequences of a dictatorship that cannot possibly be wise and strong. The government fears to await these consequences, the world deprecates the act itself, and the actor's status in the minds of all decent men was irrevocably determined by the circumstances in which he began his prominent part in the sad affairs of the neighbor land.

Refugee Felix of the U. S. S. Louisiana is politely but firmly informed that he cannot carry on even a tiny Mexican machination from the ship. Let him wait 'til he gets to S. A. Tex.

The federal appellate court in Chicago is asked to set aside the convictions of thirty "dynamite plotters" that were the verdicts in the Indianapolis trials. Will the people sit up nights hoping that the appellate court will comply?

## Waco and The News.

Complicating Conversation.  
It is rather shakily reported from Mexico City that the French minister "is said" to be inclined to blame Washington for Mexico's predicament. While we must admit the French do excel in placing the blame on any but the French, we doubt if M. Laffaire could have so confused Washington and Huerta.—Waco Morning News.

Again He "Doesn't See."  
Lorena has Waco's hearty congratulations on the acquisition of a big standpipe and arrangements for an abundant water supply. It is an example other towns in this region will do well to follow.—Waco Morning News.

Wide Recognition.  
We acknowledge a season complimentary pass to the Fourth Annual Exposition of the Texas Cotton Palace at Waco, open November 1 to 16, 1913. The Cotton Palace has already attained wide recognition as a most unique attraction and valued exposition of Texas and the southwest. Its attendance has been steadily growing and will doubtless continue to grow, as more new features are being added each year. Everybody is arranging to make every day of the "Waco path"—Hill County Review (Penslope).

His Town Can Stand It.  
We are awaiting a statement from the Hon. W. P. Lane on his experience with the patronage system. Hoping for his sake, that a few overzealous and turned-down office-seekers will adhere to the ancient custom of the land and make Yuan feel badly by suiciding on the Yellow River. It is not probable that there should prove to be as many disappointed office-seekers in China as there are in this country, and all of them should resort to the custom of killing themselves. Mr. Lane's friends make him feel sorry for not warding them with office, the mortality in that section of his town is destined to become appalling.—Houston Post.

Heard From East Texas.  
If the Hon. W. P. Lane will enlighten us as to how the proposal can be both a "smooth political scheme" and an "Utopian dream" we will consent to overlook nineteen other inconsistencies. If not of course, it is a scheme that remarkable iteration of his that we will not "fall" for or into a pro elimination performance.—Waco Morning News.

If the Hon. W. P. Comptroller Lane will be a little more forthcoming in his little plan, he will be able to worry about the fear of "falling" into an elimination scheme. The people will eliminate him as soon as they can get around to it.—Palestine Record.

Interior Telling and Utter Motives.  
Mike Harris, discussing the ability of women as sharpshooters, avers as follows: "Even a woman can hit what she shoots at in an Harlem flat, a Fort Worth room or a San Antonio flat." The idea that this handsome scribbler wishes to convey is, doubtless, that Fort Worth rooms are small on the inside, but the thrust is completely overcome by his reference to "an Harlem flat," and it is at this point that we are "b flat," but this is our first information that there is such a thing as "an flat," even if it has a "Harlem" in it. Waco can't get any English from Boston if she wishes, but we expect to run for office some day, and are not going to destroy our chances while electioneering with some good farmer by telling him we have an interior horse which relishes feedstuff, and inquiring if he raised an hay crop, and if we can get a hunk of it. Women ought to shoot husbands who talk that way.—Claude Callan in Fort Worth Star-Telegram.

"Be Square."  
The Daily Texan (State University) is benefited with a right-spirited communication from a student who signs, "Be Square." He asks the student body—more especially the "rooters" for the university's athletic teams—to "squell the mucker." He calls for the exemplification of the true "Texas spirit," the best spirit of loyalty to the university and to the state, and treatment of visiting teams, by fair and honest play and games' officials; he urges that rowdy cries and cheap comments from the stands be eliminated stringently. We could wish "Be Square" had carried his good plea a step further—applied the principle to all conduct of the student body in public places, with distinct reference to behavior in the playhouses.—Waco Morning News.

Those are our sentiments! We agree with you in every word you say. The policy of fairness on the athletic field should certainly be extended to all college activities. If we have misbehaved at playhouses, we regret it. We trust it will not happen again.—The Daily Texan (State University).

The Appeal of the Woman's Club.  
(Texas Press, in Temple Telegram.)  
We are so weary of hearing, "Oh, no; I am not a club woman. I stay at home and attend to my children." What is a club woman, we would like to ask? She is a woman who looks out into life, knows what is good for her own household and those in it and endeavors to enlarge that good. Really, a woman does not forfeit all right of respectability when she broadens her heart and mind, so it brings good to some one further on than her own loved ones. Again, there are many women who have no home responsibility. Perhaps their children are all married; perhaps they are all college graduates; perhaps they are all single women who have the mother heart for the neglected home and child. Again, it may be women who realize their responsibility to make the world better for their having had a place in it, and opportunity. These are club women.—Kate Friend, in Waco Morning News.

Especially should the woman's club appeal to the woman who has no other demand upon her time in the way of home responsibilities, for in association with our fellows do we find relief from the narrow-minded views that would otherwise beset us. Those who have been confirmed in the stay-at-home habit have also become set in their opinions. They feel sure that the other part of the world, which disagrees with them is woefully in error until on a happy day they are induced to join a club—their first step that there was another side to the question, after all.

Economical and Effective.  
(Washington Star.)  
"That boy is trying to shake the coin you gave him out of his toy bank," exclaimed the solicitous aunt. "Yes," replied the patient father, "it's a great idea. By putting a penny into a bank and letting him rattle it out we can keep him out of mischief by the hour."

## BROWNLOWE JURY UNABLE TO AGREE

DISCHARGED AFTER DELIBERATING TWENTY-THREE AND ONE-HALF HOURS.

### HIS DAUGHTER HIS ACCUSER

Keeper of Chinese Restaurant Causes Arrest of Customers Who, He Says, Neglected to Settle.

After being out for twenty-four hours a jury selected to try A. E. Brownlowe in the fifty-fourth district court on a charge of incest reported to the court yesterday afternoon that they could not agree. They were discharged.

The case went to trial Tuesday morning. Wednesday afternoon about 5:30 o'clock the case went to the jury. At 5 o'clock yesterday afternoon the jury reported that they were unable to reach a verdict.

The complaining witness in the case is the accused's daughter. A verdict for \$75 in favor of Joe Banks and against N. B. Gregory and members of the construction firm with which Gregory is affiliated was returned in the Nineteenth district court yesterday.

The suit was originally brought with the city of Waco and the Cotton Belt railroad as principal defendants. On demurrer both were ruled out of court, leaving Gregory and his partners as defendants. Banks sued for \$7,100 for alleged personal injuries sustained while he was employed as a laborer in the construction work on the Mary street storm sewer. Three fingers of a hand were cut off while employed in this work. He made the city and the railroad parties to the suit. N. B. Gregory was contractor of the work and the court held the city and railroad blameless. This also established a precedent as other cases of a similar nature, growing out of injuries to other employees on the same work, are pending in court.

### Woe in Chinese Restaurant.

Alleging that they had eaten an expensive dinner, and then attempted to leave the restaurant without settling up, proprietors of the Busy Bee cafe, a Chinese restaurant on Austin street, yesterday called on the officers to arrest four men. Two of the four men were get-away before the officers arrived. The other two were taken into custody. One was held on a charge of vagrancy and the other on an old complaint.

### NINETEENTH DISTRICT COURT.

Tom L. McCullough, Judge.  
R. V. McClain, Clerk.  
Verdict for \$75 in favor of Joe Banks against N. B. Gregory et al, in suit brought by Banks for alleged personal injuries.

### FIFTY-FOURTH DISTRICT COURT.

E. C. Street, Special Judge.  
R. V. McClain, Clerk.  
Will Douglas on trial on a charge of rape.

### COUNTY COURT.

J. W. Baker, Clerk.  
George N. Denton, Judge.  
No session held.

### JUSTICE COURTS.

Harvey M. Richey, Judge.  
Ambrosia Tiez, disturbing peace; \$12.55.

### SUITS FILED.

Justice Richey's Court.  
H. C. Newman vs. T. S. Earp, debt.  
A. P. Simms vs. Pearl Downs, note.

Justice Padgett's Court.  
A. E. Hunze vs. John Stollard, forcible detainer.

E. V. Walker vs. James Jones, note.

### Marriage Licenses.

Harry Tiers and Miss Ruth Andrews.  
Leroy Irwin and Willie Glover.  
John Seith and Miss Hattie Criket.  
Sandy Winn and Katie Davis.

### Automobile Licenses.

2636, J. H. Appel Jr., Waco, four-cylinder, twenty-horsepower Hudson.

## ABE GROSS CHAIRMAN

HE SELECTS COMMITTEE THAT WILL MEET GOV. COLQUITT TOMORROW.

President Hoffman of the Cotton Palace association yesterday appointed A. B. Gross as chairman of the committee to make arrangements for the reception and entertainment of Gov. O. B. Colquitt, who comes to Waco tomorrow to open the Cotton Palace. It was left to Mr. Gross, who is a member of the staff of the governor, to select his committee. This committee will meet the executive on his arrival here from Austin and extend a welcome in behalf of the Cotton Palace directors and the city of Waco. Governor Colquitt will be the private guest of E. B. Bolton at the Bolton residence during his brief stay.

Reception Committee.  
Chairman Gross late yesterday afternoon announced his appointments as follows: G. L. Strubling, M. M. Harris, W. W. Seley, W. P. Hobby, A. B. McCollum, W. H. Hoffmann, George Robinson, E. R. Bolton, W. J. Neale, Judge Sam R. Scott, Lud T. Williams, N. B. Williams, H. F. Jordan, Asher Sanger, W. W. Fryer, Mayor J. H. Mackey, E. W. Marshall, H. M. Raine and W. V. Crawford. The committee

## CASTORIA

For Infants and Children.  
The Kind You Have Always Bought

Bears the Signature of *Dr. J. C. Watson*

Keep your kitchen cabinet, ice box and all utensils healthfully clean with **GOLD DUST**  
The manufacturer voluntarily attach a label to every tin of Gold Dust for cleaning R. Dust for other cabinets, too.  
Quickly brightens metal and makes woodwork snow white. Cleans everything. 5c and larger packages.  
**THE K. FAIRBANK COMPANY**  
CHICAGO  
"Let the GOLD DUST TINGS do your work"

will meet the governor on his arrival here Saturday afternoon at 4:30 p. m. and escort him to the State House, where the executive and his staff will have their headquarters and where they will meet their personal friends and the public generally.

Appeal to Business Men.  
President Hoffman has addressed a strong appeal to the business men of Waco, urging them to co-operate in the efforts to make this year's exposition a great success. He says:

The good ladies and the directors have worked long and faithfully in efforts to produce a show that will stand in a class by itself, a show which every citizen should feel proud of. To make such an enterprise a success, you must have first, a good exposition, and, second, you must have a big and active attendance. The point I wish to bring to your attention is I want to ask you as a personal favor—get all the business you can during the day, but when the day is over—I want you to come to the Cotton Palace; not only you yourself, but bring others, and in this way express your appreciation to those who have worked to make it the show that put new life and ginger into our city and has advertised Waco all over the world. Remember, a small crowd of our own people in attendance would do as much more injury than having no exposition at all.

I wish to call particular attention

to, and ask for, your attendance on the opening night, not only to help give the show a good send-off, but to do honor to "our governor," and then again to "Waco Day," Tuesday, November 4—woo to the person who fails to show his loyalty and appreciation on "Waco Day."

Remember the exposition is for sixteen days. May I count on your help in making these sixteen days the brightest, happiest and most delightful days of the year?

## Woman Arranges for Mock Marriages With Chinese Men

Boston, Oct. 30.—Upon her confession that she arranged pretended marriages between white girls and Chinese and forged marriage certificates of justices of the peace, Maud Youngdan, the white wife of a Boston Chinaman, was given an indeterminate term in the woman's prison at Sherborn today.

The evidence showed that the defendant took five young girls from one New England city to another and had them married to Chinese by mock ceremonies.

## TRY POSLAM OVERNIGHT FOR PIMPLES

When it is desired to quickly remove undue redness, an adolescent blemish, Poslam will prove itself invaluable. Used at night the improvement may be seen the next morning. Poslam is alone in possessing this unique virtue.

In all skin affections, Poslam produces immediate, noticeable results, stopping all itching, and rapidly restoring the skin to normal condition. Eczema, acne, tetter, salt rheum, all forms of itch, scalp scale, psoriasis, pimples, rashes, etc., yield to Poslam as to nothing else.

Poslam Soap is without equal for tender skin; the facial purifying soap, grateful, soothing and non-irritating. All druggists sell Poslam (price 25 cents) and Poslam Soap (price 25 cents). For free samples, write to the Emergency Laboratories, 32 West 25th Street, New York City.

## ASK FOR DEVELOPMENT REPORT

Dry Farmers Request Government Co-operation in Agricultural Research.

Tulsa, Okla., Oct. 30.—The International Dry Farming Congress today adopted a resolution asking congress, President Wilson and Secretary of Agriculture Houston to co-operate in the appointment of a national agricultural research commissioner, whose duty it shall be to report within two years after appointment the exact status of agricultural development in the United States and the development of any phase of agricultural education or promotion that may have been developed as a permanent educational value to the nation.

The resolution also asks that congress appropriate \$250,000 for the carrying on of the work of such a commission which shall be composed of nine members and a resident secretary.

The farm congress will close Friday following a number of technical speeches.

The boards of control have decided to keep the exposition open until November 2.

Wichita, Kansas, was today selected as the 1914 meeting place of the congress. Regina, Canada, Prescott, Arizona, and Budapest, Hungary, were the other candidates.

## "STATES RIGHTS" AGAIN UP

Another Effort Made in Railway Commissioners' Association to Suggest Curbing State Commissions.

Washington, Oct. 30.—Another determined effort late today to have the so-called "state rights" resolution adopted by the national association of railway commissioners resulted in the passage of a sub offered by Commissioner Eshelman of California. This sub resolution, without going into the constitutional questions, declared it "the sense of this association that no legislation by congress attempting to enlarge the jurisdiction of the interstate commerce commission over commerce purely intrastate, is at this time necessary or desirable."

The vote was unanimous after a spirited debate which started when the convention again took up the "state rights" resolution introduced by Commissioner Finn of Kentucky, and tabled by a vote of 20 to 19. This would have asserted the right of the states to exercise their constitutional authority over intrastate commerce without hindrance from the federal government.

Those who favored the original resolution contended that a concerted effort was being made to denude the state commissions of rate making authority and to centralize such powers in the interstate commerce commission. Commissioner Thorne of Iowa declared interstate rates should conform to reasonable state-made intrastate rates.

Street Car Men Make Demands.  
Indianapolis, Oct. 30.—Demands were made late today by a committee from the street railway employees upon traction officials for recognition of the newly formed union, increase in wages, shorter hours and arbitration of all differences. The men requested an answer by noon tomorrow.

## GIRLS! STOP WASHING THE HAIR WITH SOAP

SOAP DRIES YOUR SCALP, CAUSING DANDRUFF, THEN HAIR FALLS OUT.

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanser." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few moments the hair will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Beside cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff, stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.

## CHARTERMAKERS MAY RECONSIDER

CITY AUDITOR PROVISION, ONCE REJECTED, NOW FINDS FAVOR.

## AUDIT OF BOOKS LIKEWISE

Sidelights on City Business Affairs Are Projected in Course of Debate by the General Committee.

The provision for a city auditor, stricken from the charter by the general charter revision committee at a meeting some weeks ago, may be revived and again written into that document, together with a broader provision that will require an audit whenever the city commission shall deem it necessary for not only the books of all city departments but also those of the auditor.

Action looking to that final result and also decision to submit on alternate vote to the people the question of whether the water commission shall be retained or the duties of that body be taken over by the city commission, and the elimination of the provision for a personal bond for the city treasurer and allowing that official to give a bond of any kind that is good, were the features of the general charter revision committee last night.

**Friedlander's Amendment.**  
The question of whether the position of city auditor shall be created by the charter was brought up after an amendment submitted by Mr. Friedlander had been adopted, which was introduced to take the place of that section creating the auditor. Mr. Friedlander's amendment provided that the books and accounts of the city shall be audited annually or oftener if the commission so deems necessary, by a competent public auditor, who shall be selected by the commission. The section creating the auditor had been previously stricken from the charter.

After the Friedlander amendment was adopted Judge Marshall Surratt as advisor to the committee reminded that body that the elimination of the auditor from the charter left some duties open, that the charter did not specify should be the duties of any officer.

**Sidelights on City Affairs.**  
This statement opened a line for expostions of the auditor and on motion the question was reconsidered. During the course of the argument in favor of such a position Peyton Randle stated that at the present time as much as \$1,800 per month passes through the police courts in fines, and that there is no record of this money except that kept by the chief of police. He stated that there was no record to show whether a person paid his fine in cash or worked it out. He termed the method now in use as not business and demanding the office of city auditor.

Forrest Goodman said some one was needed to look after the city's business, to audit the schools and water commission's books and to watch after the expenditure of city money. He said the salary to employees of the water company, that is laborers, is paid in cash on the job, and no record kept of the amount paid them except by the man who pays them off.

**Hirshfeld Changes Views.**  
D. E. Hirshfeld said he formerly opposed the position of auditor, but would support such a position now. Under the present system Judge Surratt said there was no way to check up the chief of police and he could not prove he was honest no matter how honest he was.

George Robinson said the board of commissioners has power to create an auditor if they needed him, and if the need existed the commissioners had better do it. He said it would be possible for the auditor to be a party to crookedness.

Crate Dalton opposed the idea of creating an auditor, stating the city secretary should have help and should to what he commended is planning for an auditor to do.

**Would Change the Name.**  
The matter was left open because an amendment to that section was submitted by Spencer, Sullivanberger and Corneisen, which proposed to change the name of the controlling board of the auditor from public service commission to board of commissioners. But for this one item which was passed over till next meeting to be taken up in connection with the consideration of the public service commission plan, the question of an auditor would probably have been rewritten into the charter and the people would have had an opportunity to vote upon the question.

When called up again it will doubtless be passed.

**The Struggle Begins.**  
The first fight of the meeting came when the Hirshfeld amendment, striking out the word "personal" as relating to the kind of sureties to be required on the bond of the city treasurer, was read. Mr. Hirshfeld contended that the city had a right to require a good bond and he thought the matter of whether it be a personal or a surety company bond should be left to the discretion of the commission. Peyton Randle said the word "personal" was placed in the article intentionally, stating that bond companies were primarily organized to defeat the payment of bonds and that if a man does not stand well enough in his community to give a personal bond he should not hold office. Judge Surratt said the county required personal bond, and Crate Dalton reminded him that the last legislature left it optional with the officials as to whether a personal or surety company bond is given. Judge Surratt said bond companies have so many loopholes through which they can escape payment of bonds on technicalities.

**Sanger in Opposition.**  
Mr. Sanger opposed the personal bond, stating that the bond companies were required to keep surety to the amount of \$100,000 on deposit with the state treasurer. He said he was talking from experience, as a short time ago his company had occasion to investigate fifteen bonding companies, and that every company showed his company they had \$100,000 on deposit with the treasurer. He said he could not understand how a personal bond was as good as a bonding company bond.

Mr. Hirshfeld's amendment was finally adopted and the word "personal" eliminated, leaving to the commission the choice of a personal or surety bond.

**Amendment Referred.**  
An amendment by Friedlander proposing to eliminate the separate water board and placing the same under the

## FUSIONISTS ENT HUSE

SUPPORTERS OF JOHN PURROY MITCHELL HOLD BIG MASS MEETING.

All Speakers Denounce Tammany, McCall, Its Candidate and Murphy, Its Leader.

New York, Oct. 30.—Enthusiasm for the fusion municipal ticket, headed by John Purroy Mitchell, reached its height tonight as a big mass meeting in Madison Square Garden. The audience heard the mayoralty candidate himself, former Mayor Seth Low, who once led a fusion cause to victory, Oscar S. Straus, former ambassador to Turkey, and others attack Tammany Hall, Edward E. McCall, its mayoralty candidate, and Charles F. Murphy, its leader.

Mr. Straus aroused the crowd to a demonstration when he denounced Tammany Hall for what he declared was its recently displayed power to conduct its own recall and make and unmake a governor.

Seth Low, as chairman, also caught the crowd when in answering his own question, "How can Tammany be destroyed?" He replied "by putting it on a hunger strike and not trying to forcibly feed it."

Edward E. McCall addressed several meetings tonight at which he departed from his usual custom by mentioning by name John A. Hennessy, Governor Sulzer's graft investigator, who has brought many charges against McCall and Murphy.

"The charges of Hennessy and Sulzer, instead of winning a fusion victory, will, by their perfidiness, damn the fusion cause before election day," McCall declared.

Hennessy continued his spirited campaign tonight. He devoted the greater part of his talk to Charles F. Murphy, reiterating charges he has made against the Tammany leader, incidentally heaping ridicule upon him for his declaration that he turned to the late Anthony N. Brady the latter's \$25,000 campaign contribution.

Statements, denials of charges and the continued use of "the little black book," said to contain the records of conversations with ex-Senator Stephen J. Stilwell in Sing Sing prison, which was turned over to District Attorney Whitman, were among the incidents that helped keep the campaign in swift motion during the day.

The "little black book" will be used by the district attorney in the "John Doe" inquiry of the Hennessy charges against Charles F. Murphy and Edward E. McCall.

This inquiry Mr. Whitman ordered Chief Magistrate McAdoo to begin at once.

**McCall Denies Sulzer's Statement.**  
McCall denied a statement made by William Sulzer, the deposed governor, in which Sulzer charged that McCall, posing as his friend, tried to get him to call off the Hennessy investigations. McCall pleaded that Murphy had promised him the nomination for chief judge of the court of appeals, Sulzer said, and that if everything was satisfactory Sulzer could name the man for associate judge.

McCall today called Sulzer a "poor, misguided man" with a "disordered brain."

That even a telephonic device sometimes records untruths was charged by John F. Delaney, who issued a statement in which he declared that "some illiterate person" impersonated him when the machine was alleged to have recorded the conversations in the executive mansion at Albany at which Sulzer is said to have insisted that Delaney had taken \$10,000 contributed to Sulzer's campaign fund by Allan A. Ryan to Charles F. Murphy. Delaney asserted he never could have used such language as was attributed to him.

In what is said to have been the longest interview of his career Charles F. Murphy predicted the election of McCall, who, he said, was not his candidate as has been charged; that he had favored the renomination of Mayor Gaynor, but was overruled by his lieutenants.

Delegates of thirty leagues, which were organized to work for the reelection of the late Mayor Gaynor, and are now giving their support to the fusion ticket, were addressed tonight by Mitchell. The anti-Tammany cause favored by Mr. Gaynor is still regarded by the fusionist forces, Mitchell said.

"We will carry on that cause as far as it is given us to do with our abilities and powers until we have come to the point where Tammany's system of misgovernment in this city has been broken forever," he declared.

Dudley Field Malone, third assistant secretary of state and son-in-law of United States Senator O'Gorman of New York, spoke at the big fusion meeting in Madison Square Garden in the interest of Mitchell, who incidentally attacked Congressman John J. Fitzgerald, democrat, of Brooklyn, who in a recent speech in the house assailed John Purroy Mitchell as a professed democrat and an administration appointee, who was heading a movement against the New York City democracy.

READY FOR TRACK MEET.  
Thirteen Entrants for the Cotton Palace Events Are Listed.

Thirteen brawny athletes filed application last night for the Cotton Palace track and field meet to be held on November 16. The meeting was well attended and much interest and enthusiasm was manifested. The meet comes at a time when most teams are not working for such exercises and the Y. M. C. A. has a better chance of winning this season than ever before.

The team will meet for practice on high school ground Monday evening at 6:30 and then followed by another rally on Thursday evening at 7 o'clock.

CAPITOL FOR UNIVERSITY.  
Sold at Nominal Cost—Injunction Delayed.

Guthrie, Okla., Oct. 30.—The Methodist University of Oklahoma, New Mexico and Texas is entitled to permanent ownership of the former Oklahoma capitol building and grounds, according to an opinion today by District Judge Houston. The property was sold to the university last May on payment of one dollar purchase price after the electors of Guthrie favored the sale by a referendum vote.

Delivery of a deed was held up by injunction proceedings taken on the ground that a public park could not be sold, at least for a merely nominal consideration and that public property could not be donated to a sectarian institution.

Judge Houston held that the Methodist university was not sectarian because it was open to all classes and to members of all churches and sects.

# Height-of-the-Season Display In All Departments

THESE are busy days in every department of our store, but particularly so in the ready-to-wear departments, where the season's latest novelties in coats, suits, skirts, waists, dresses, and furs are on display.

But we have not let the heavy selling of the past two weeks influence our policy of always having complete assortments and complete ranges of sizes in all these stocks. For the past ten days we have been wiring in orders to manufacturers of women's apparel upon whom we depend to provide you with the very latest styles and fashions. Now we can announce that final shipments have brought our stocks to the point where we are showing today not only as many garments as we have shown at any time during the season, but a great number that sound the very latest word in fashion.

If you have deferred purchasing your fall suit or coat, come and see those here today. The latest arrivals created by the master designers of the world in garments.

## Installation of Fixtures

is now practically complete. In another day the workmen will have finished their work and departed. Visitors to the second floor today will be agreeably surprised at the changed appearance of this room---the finest store-room in the state in equipment.

New Building for Dallas.  
Dallas, Oct. 30.—According to R. W.  
Higginbotham, president of the Hig-  
ginbotham Millinery company, that  
concern has definitely decided to erect  
a six-story building at the southwest  
corner of Jackson and Poydras streets.  
The property is at present occupied  
by the old Boren & Stewart company  
building. The Boren & Stewart com-  
pany is erecting a new structure at  
Lamar and Collins streets. This build-  
ing is nearly half finished. As soon  
as completed it will be occupied by  
the Boren & Stewart company and the  
present quarters discontinued.

Arrange Winter Roads Meeting.  
Dallas, Oct. 30.—The executive com-  
mittee of the Texas Good Roads as-  
sociation met Wednesday afternoon at  
the Dallas Chamber of Commerce, and  
decided to hold the mid-winter meet-  
ing of the organization at Fort Worth  
in January, 1914. W. A. Aldorf rep-  
resented the national body at the  
meeting. Among the speakers were:  
J. W. Warren, San Antonio, president;  
G. W. Blake of Dallas, E. E. Edwards  
of Fort Worth, D. E. Colp of San An-  
tonio, E. W. Kirkpatrick of McKinney  
and Homer D. Wade of Stamford, sec-  
retary.

## ROBBERS AT MESQUITE

ARE DISCOVERED AND ONE IS  
SHOT, BUT MAKES HIS  
ESCAPE.

Steal Automobile From Dallas and  
Wreck It in Getaway—One  
Arrest Made.

Dallas, Oct. 30.—Officers are search-  
ing for a 19-year-old white boy whom  
it was believed was seriously injured  
in a battle this morning at Mesquite  
between four burglars and special of-  
ficers who discovered the men in the  
Reagan Company's dry goods house.  
The burglars were discovered by  
Special Deputy Sheriff Mewshaw. He  
entered the store behind the burglars  
and fired one bullet from a pistol,  
which it is believed struck the head  
of the injured boy. Mewshaw then went  
to call help, leaving the wounded man  
in the building. When he returned  
the injured man had escaped. Two  
others also had made their getaway  
and had gotten the automobile in  
which they went to Garland, and were  
returning to the city. After proceed-  
ing one mile the car was overturned  
and is a wreck. The men, it is be-  
lieved, then walked to Dallas.

Only one arrest was made. The party  
is being held for investigation.  
Do Not Drive Into Garland.  
The burglars did not drive into Gar-  
land in the automobile, but left it  
standing some distance outside of the  
city. The prompt action of Night-  
watchman Mewshaw in going into the  
store no doubt resulted in the capture  
of one of the men, as the one watching  
on the outside would have warned his  
comrades that Mewshaw had gone  
to summon aid. The people of Garland,  
as well as Sheriff Brandenburg, under  
whom Mewshaw has a commission as  
deputy sheriff, were high in their  
praise of the navy officer.

The daring manner in which the  
burglars secured the automobile was  
told by F. O. Stoker, owner of the car.  
Mr. Stoker lives at 5119 East Side ave-  
nue, and Wednesday evening he ran  
the car up on the lawn in front of his  
house and within ten feet of the win-  
dow of the room where he slept. He  
locked the car with a chain and Yale  
lock, took out the spark plug and cov-  
ered the car with a wagon sheet. The  
robbers pushed the car half a block to  
the paved street. There they broke the  
lock and with their own spark plug  
put the car in running shape and were  
off. Mr. Stoker did not miss the car  
until he arose this morning. The car  
is an overturned wreck near Garland,  
where the robbers left it.

The same store was burglarized  
six weeks ago and several hundred  
dollars' worth of clothing, dry goods,  
etc., was stolen on this occasion. A  
general mercantile store at Mesquite  
was also recently burglarized and more  
than \$1000 worth of goods were stolen.

## CHANGES IN REVENUE FORCE

By Reason of Authority Granted in  
Recent Currency Bill, A. S. Walker  
Announces Shifts.

Austin, Oct. 30.—By reason of the  
authority granted internal revenue col-  
lectors in the rider to the recent cur-  
rency bill passed by the congress of  
the United States, Revenue Collector  
A. S. Walker announced today the  
following changes in the force. Major  
E. Sammons of Austin was made  
chief deputy to succeed A. C. Hall, who  
was transferred to the position of gen-  
eral deputy collector of the state with  
headquarters at Austin. This change  
becomes effective November 1. Geo.  
W. Keifer, division collector at Dal-  
las resigned and G. D. Hunt of Fort  
Worth, with headquarters at Fort  
Worth, was transferred to the Dallas  
office. H. G. Musick of Fort Worth  
was appointed division collector at  
Fort Worth.

## DALLAS WOMAN SUICIDES

Mrs. Maude Westbrook Drinks Car-  
bolic Acid.

Dallas, Oct. 30.—Mrs. Maude West-  
brook, 24 years old, ended her life by  
drinking carbolic acid at her home,  
3304 Bryan street, this morning. Her  
death was the fourth to be self-in-  
flicted in Dallas within the past three  
days.

Mrs. Westbrook according to Mo-  
torcycle Officer Walter Johnson, who  
investigated the case and reported to  
police headquarters, drank a tumbler  
full of the corrosive acid. She died  
almost immediately, her features be-  
ing seared and burned to a terrible  
extent.

Mrs. Westbrook took the poison in  
the presence of her husband, W. L.  
Westbrook. Mr. Westbrook recently  
came to Dallas with his wife from Ok-  
lahoma City. He is connected with a  
local real estate company. Mrs. West-  
brook is survived by a 7-year-old  
boy, by a former marriage.

## CIRCLE A GINGER ALE

## TO STOP DALLAS SUNDAY SHOWS

Moving Pictures on Donation Plan Not  
Affected—Theatres Not Allowed  
to Open.

Dallas, Oct. 30.—Police Commis-  
sioner Louis Blaylock Thursday morn-  
ing conferred with Sheriff Ben Branden-  
burg regarding the closing of theatres  
in Dallas on Sunday. As the result  
he stated that he will assign a squad  
of four plain clothes men to close all  
theatres which may attempt to op-  
erate in violation of the state law No-  
vember 2.  
It is not likely that action will be  
taken against moving picture shows  
which are operating on the donation  
plan. Mr. Blaylock today stated that  
he believed that the donation system  
was not contrary to the state law.  
The question as to whether a moving  
picture show is a theatre also has  
never been fully proved to the satis-  
faction of city officials.

## BURLESON SEEKS A STANDARD

Postoffice Department Will Conduct  
Model Offices Where Methods  
Will Be Studied.

Washington, Oct. 30.—Postmaster  
General Burleson has decided to stan-  
dardize the entire postal service so far  
as possible with a view to greater ef-  
ficiency. To this end the department  
will operate a number of model of-  
fices, "dynamos from which to charge  
the entire chain and system of offices  
throughout the country."

These offices will be used to discover  
the best practical way of adminis-  
tering the postal facilities and to test  
out devices and methods which may  
prove of value.

In organizing the field service for  
this work the country has been divided  
into three groups, the Atlantic states,  
the middle west and the Pacific coast.  
It is proposed to send immediately two  
postal experts from Washington to  
each of these divisions, where they  
will co-operate with postoffice inspec-  
tors in a study of conditions at desig-  
nated offices with a view to reorganiza-  
tion of the clerical forces on a more  
efficient basis, if found advisable.

The investigations will cover every  
phase of the service, including collec-  
tion of mail, methods of handling in  
postoffices and on trains and final deliv-  
ery. "In this way," the postmaster  
general said today, "postmasters of all  
classes will be given the benefit of the  
discoveries of the more important of-  
fices and a material betterment of the  
postal service throughout the country  
must result."

## FINAL SERMON TONIGHT

Rev. J. M. Dawson of Temple to Preach  
to Old Folks Today.

The series of special sermons and  
services that has attracted large con-  
gregations to Brook Avenue Baptist  
church in the last few weeks will en-  
d tonight with Rev. J. M. Dawson in the  
pulpit. He will be assisted in the  
services by Rev. F. J. Harrell, pastor  
of the church.

Mr. Dawson will preach a sermon  
to "the old folks" tomorrow after-  
noon at 3:30 o'clock and it is es-  
pecially desired that all of the "old  
folks at home" will attend and the  
younger members of the household  
shall bring them with congeniality  
if they are unable to walk. The ap-  
plicable services have been productive  
of much good, the pastor reports, a  
number of additions having been made  
to the membership of the church.

## HOMEOPATHS ADJOURN

Waco Man Is Elected Vice President  
at Dallas Meeting.

Dallas, Oct. 30.—To meet again in  
Dallas in October, 1914, the Texas  
State Homeopathic Association ad-  
journd after the election of officers for  
the current year. Those officials  
are as follows:  
President, Dr. C. C. Bowes, Green-  
ville; first vice president, Dr. S. Co-  
hen, Waco; second vice president, Dr.  
Jesse L. Givens, Bowie; secretary, Dr.  
Julia H. Bass, Austin; treasurer, Dr.  
W. D. Gorton, Austin.

W. C. T. U. on Suffrage.  
Asbury Park, N. J., Oct. 30.—The de-  
partment school of methods of the  
National Woman's Christian Temper-  
ance Union met today preliminary to  
the opening of the fortieth annual con-  
vention here tomorrow. Mrs. Re-  
becca K. Livingston, in an address,  
said the W. C. T. U. should not find  
fault with militant methods of suffra-  
gettes in England.

"We are not here to commend or  
condemn," she said, "first and fore-  
most we want the ballot as a weapon  
against the liquor traffic and we do  
not hesitate to say so."

Mrs. Louise C. Purington, of Man-  
hassetta, urged the women to watch  
the laws of their own states regard-  
ing legislation permitting teaching of  
eugenics in the public schools. Law  
makers should consider this carefully  
before permitting it, she said.

## DOCTORS DIFFER OVER WOUNDS

Expert Testimony in Bellini Case Dif-  
fers More Than on the  
First Day.

Kiev, Oct. 30.—The testimony of the  
doctors in the trial of Mendel Bellini  
for alleged "ritual murder" differed  
even more today than yesterday and  
led to an acrimonious dispute between  
the imperial court surgeon, Dr. Pav-  
loff, and Prof. Kosoroff, who ac-  
cused each other of lack of knowledge  
of medical jurisprudence.

Much time was spent in discussing  
whether there were thirteen or four-  
teen wounds in the boy Yushinsky's  
left temple, the number thirteen hav-  
ing apparently a cabalistic influence.  
To help clear up this point it was sug-  
gested that the preserved scalp be  
shown the jury, but it was decided not  
to do so. The number of wounds  
heretofore remained unestablished. Dr.  
Tutanoff of Kiev university declared  
that the difference of five centimeters  
in the two critical measurements of the  
body was due to a mistake of an at-  
tendant.

## DEVELOPMENT IN BROWN CASE

Continued From Page 1.

because the murder was the foulest  
and most dastardly ever committed in  
this county.

## May Not Be Brought to Dallas.

Memphis, Tenn., Oct. 30.—The man  
held for disposition by the Dallas po-  
lice authorities in connection with the  
murder of Miss Zolga, a Russian, was  
in Memphis today, accompanied by au-  
thorities of the Indiana state reform-  
atory, where he had been confined. It  
is stated that the man will be taken to  
Texas by a roundabout way, probably  
by way of New Orleans, and will not  
be sent to Dallas for the present at  
least.

The man denied to Memphis news-  
paper reporters today that he had ever  
made a confession in connection with  
the murder of Miss Brown. He said  
he was not in the vicinity of the crime  
at the time it was committed and  
that he can produce witnesses to  
prove an alibi. The only evidence  
against him, he declares, was the pos-  
session of a pistol which had been pur-  
chased in Dallas.

The man in question is being ac-  
companied by Superintendent Peyton  
and Dr. J. H. Walker, physician of the  
Indiana reformatory.

Chief of Police Ryan of Dallas vis-  
ited the man at Jeffersonville, Ind.,  
about two weeks ago, and after a rigid  
cross-questioning the chief of police  
gave out the statement that he placed  
little confidence in the alleged confes-  
sion. Chief Ryan said at the time that  
he believed the man was irresponsible.

Later developments and the activity  
of the superintendent of the Indiana  
reformatory indicate that the Dallas  
officers propose to investigate the  
matter exhaustively.

It seems certain that the man will  
not be taken to Dallas for some time  
and that he will be held in a Texas  
city, some distance from the scene of  
the crime, until a complete investiga-  
tion can be made.  
County Attorney Currie McCutcheon,  
Chief of Police Ryan and Detective  
DeWitt of Dallas arrived in the city  
shortly before noon today and went  
into conference with Superintendent  
Peyton and Dr. Walker.

Later the man in custody was  
brought before the officials and closely  
questioned in regard to the murder of  
Miss Brown.

## May Be Held at Memphis.

As the result of a conference be-  
tween Indiana and Texas authorities  
today, it was announced by Chief of  
Police Ryan of Dallas, who arrived  
here this morning, that the man held  
in connection with the killing of Flo-  
rence Brown in that city in July last  
may be detained in Memphis for a  
month or two.

The man was closely questioned by  
the Dallas officials and Chief Ryan  
afterward declared the Texas authori-  
ties were not fully satisfied that he is  
the right man, notwithstanding the  
man's alleged confession to the Indiana  
authorities.

Chief Ryan said he did not know  
when the man would be taken away  
and that it might be tonight, a month  
or even two months. He declined to give  
any reason for the delay.

Other officials who are here are De-  
tective DeWitt of Dallas, Dallas police  
force and County Attorney Currie Mc-  
Cutcheon.

The man was brought to this city by  
Superintendent David Peyton of the  
state reformatory and Dr. J.  
H. Walker, physician at the same in-  
stitution, with an understanding that  
they would deliver the prisoner to the  
Texas officials.

"We may take Barr away in a few  
hours, or he may remain here for a  
month or more," Chief of Police John  
Ryan of Dallas, replied to the ques-  
tion tonight. Major David Peyton,  
superintendent of the reformatory at  
Jeffersonville, Ind., where Barr was  
confined and to whom he is alleged to  
have confessed, was equally non-commi-  
tal.

"We are working in perfect harmo-  
ny with the Dallas officials," Mr.  
Peyton declared. "At this time we  
can make no statement as to our  
plans."

It is not thought probable, however,  
that Barr will remain here long. A  
dispatch from Austin late today said  
that no requisition had been issued  
by the Texas governor.

Barr was brought to Memphis this  
morning in the custody of Superinten-  
dent Peyton and Dr. J. H. Walker,  
prison physician at Jeffersonville.  
Chief of Police Ryan, County Attorney  
Currie McCutcheon and Detective De-  
witt of Dallas arrived several hours  
later.

Mr. Peyton asserts that at the time  
Barr is alleged to have confessed, Dr.  
Walker was present.

"I don't see any reason why he  
should deny the confession unless in  
the hope of escaping prison sentence  
in Indiana," Dr. Peyton stated tonight.  
"He has been paroled."

"Much of the evidence in our pos-  
session, however, will have to be  
threshed out before we are positive  
of any proof."

## Literature Will Evangelize.

Topeka, Kan., Oct. 30.—Literature  
is one of the greatest factors in the  
evangelization of the world, Mrs. J. P.  
Fisher of Cincinnati said today in an  
address to the women's foreign mis-  
sionary society of the Methodist Epis-  
copal church in session here.

## WOMEN WILL SEE MAJORS PLAY

Training Grounds of Giants at Marlin  
Put in Shape—Betting Order  
Announced.

Marlin, Oct. 30.—The Giants' training  
grounds here have been put in good  
condition for the exhibition game here Mon-  
day between the world's touring teams,  
and if rain does not come to mar the  
occasion, the big event will be pulled  
off on scheduled time Monday afternoon.  
The weather is ideal if it remains like  
the present, and even colder weather is not  
going to make any difference, as the  
athletes are accustomed to playing in far  
colder weather during their early season  
games and at the close in northern cli-  
mates.

The batting order of the teams will  
probably be as follows, which is the same  
as played at other places:

New York—  
Snodgrass, cf  
Magee, ss  
Lobert, 3b  
Doyle, 2b  
Merkle, 1b  
Boylan, p

## Christy Mathewson Turns Playwright

Marlin, Tex., Oct. 30.—Christy Mat-  
thewson has turned playwright and  
his first offering just presented on the  
New York stage is "The Girl and the  
Pennant." It goes without saying that  
it's a baseball story and that the Giants  
figure conspicuously in the plot, al-  
though under the name of "The Eag-  
les." The training grounds in Tex-  
as, wherein "Sligo" supplies for Mar-  
lin forms an interesting scene in the  
play. It is said that the play de-  
picts baseball plays true to life and  
has a strong vein of comedy coursing  
through the bill.

lier, commissioner of insurance and  
banking, attacking the interpretation

## HORRIBLE DEATH OF ED FOLKS

KILLED ON THE KATY TRACKS  
AND HIS BODY DIS-  
SECTED.

## GHASTLY DISCOVERY BY BOY

Jack Stewart Finds Mangled Remains  
of Victim—Coroner Says Inquest  
Is Unnecessary.

The head and shoulders of a man's body, later identified as that of Ed Folks of this city, a laborer, were found on the Missouri, Kansas and Texas railroad track near Eleventh street last night at 9:30 o'clock, immediately after passenger train No. 135 had passed. Mangled pieces of the body were strewn along the track for 150 feet.

**Boy Makes Ghastly Find.**  
Nothing was known of the accident by the railroad until about 10:30 until Jack Stewart, a boy, who happened to be walking down the track, found the parts of the body. A. J. Hoherd, switchman, who was on the train, said that No. 135 was backing down the track toward the depot with two freight cars loaded ahead of it. The train stopped when the rear end reached the freight depot, and five minutes later Jack Stewart discovered the body on the track over which the train had just passed, the upper portion of it lying a few yards in front of the engine. Apparently the entire length of the train had passed over the man.

**Switchman's Story.**  
Switchman Hoherd says that he was swinging to the side of the freight car at the rear end of the train, with his lantern and that he saw or heard nothing of the accident. The train was empty except for the crew, as it makes up here and was due to leave over the Texas Central line at 10:50 p. m.

**Police on the Scene.**  
The police station was notified of the accident as soon as possible and Sergeant Frasier went to the scene. It was he who identified the body as that of Ed Folks. Folks was formerly in the employ of the Cooper Grocery company, but had been in Temple for the last month. He had a brother in this city, Henry Folks, now in the employ of the city. The body was viewed last night by Justice Richey, who deemed an inquest unnecessary.

The remains were taken to the L. C. Puckett undertaking establishment. The funeral will be held some time today, the hour not having been announced last night.

## BETTER MARKETING SYSTEM

Continued from Page 1

It is allowed to rot there, while a city 300 miles away—a twelve-hour run on a fast freight—is crying for that product. The whole is in confusion from season to season.

"I am going to say something I had not intended to say, but the situation appeals to me so peculiarly that I am going ahead. I believe that the United States should be divided in a way that from a central office, and have a train dispatcher there who could move these products rapidly to points where they were needed. I don't think and say this system could be created in a day, but it is possible."

He then illustrated how in East Texas last year he bought canteloupes for 10c per dozen, when they were retailing for 10c each in Chicago. The dispatcher he stressed as an economic waste that would be ruinous.

**Would Encourage Farmer.**  
That the farmer boy with an education can now find greater opportunity in the town than in the country, in spite of the sentimental epigramming and "back to the farm" moves, was stated by the speaker. He said that the very trend of the population moving in a great mass to the towns, tentatively one, and not to go down as law in its literal form. He closed by asking those present to give him actual occurrences and figures where a failure of distribution had been hurtful.

Congressman Sumners spoke very modestly of his bill, declaring it a tentative one, and not to go down as law in its literal form. He closed by asking those present to give him actual occurrences and figures where a failure of distribution had been hurtful.

At this point the meeting chose Frank A. Briggs to act as secretary during the morning.

**Prior Cites Instances.**  
Col. Pryor first accepted the congressman's request and told of how a man had raised eleven carloads of lettuce and after investigating by sending friends parcel post packages of it, tried to market two cars. They failed to pay freight in St. Louis by several dollars, though his friends later wrote him that the same stuff was retailing at 10c per head, and often higher.

Others followed. Col. Holland said his figures showed that 100,000 carloads of produce rotted in the fields, the consumers paying for them. Gerald Fitzgerald said that peaches that brought just a little more than enough per car to pay for the freight retailed for 10c per car. Other examples were prevalent.

Before closing the meeting the producers commended the Sumners bill with a resolution, which will be urged upon all the farmers' meetings of the state and in the nation. The committee that prepared it was as follows: Col. Ike T. Pryor, E. W. Kirkpatrick, Gerald Fitzgerald, Charles B. Austin, Judge Ed R. Kone, Henry Exall, W. D. Williams.

**Adopt Resolution.**  
The conference adopted this resolution:

"Whereas, the present unsatisfactory methods of sale and distribution of agricultural products result in great loss to both producer and consumer and threaten the food supply of this country, so that this condition calls for legislation to remedy the evils connected with the marketing of agricultural products and assist in remedying a condition where agricultural products are selling at a price prohibitive to the average wage earner in one section of the country and rotting in the fields in other sections. Be it further

Resolved, That a bureau be given ample authority to do everything necessary for the relief of the people and co-operate with the authorities in the different states. Be it further

Resolved, That Prof. Charles R. Austin be requested through the division of public affairs of the University of Texas, to gather statistics of marketing conditions in Texas at the present time and to forward same to our representatives in congress."

The resolution thanked Congressman Sumners for calling the conference. Its signers were Ike T. Pryor, Gerald Fitzgerald, Ed R. Kone, Wm. D. Williams, Charles B. Austin, Henry Exall and E. W. Kirkpatrick.

## NIGHT INSPECTION OF THE PALACE

DIRECTORS OF EXPOSITION VIEW  
THE GROUNDS AND  
BUILDINGS.

## EVERYTHING IS IN READINESS

Ablaze With Myriad Lights, the Cotton Palace Presents a Gay and Brilliant Appearance.

The Cotton Palace directors assembled at the exposition park last night, going in a body over the grounds and through the various buildings. They first viewed the beautiful electric fountain, which was turned on full blast; then the lights were flashed on the exterior of the main building in all their brilliancy. The two main wings of red, white and blue incandescent light on either side of the main promenade were then turned on. All presented the most enchanting general night view of any exposition in the south.

**Brilliant Illumination.**  
The Cotton Palace grounds have been termed the most beautiful of any exposition, and with the myriads of Mazdas turning night into day the multitudes will find a dazzling welcome.

A peep was taken into the cotton modeling department in going through the main building. This must be seen to be fully appreciated. The exhibits therein are simply beyond description. There is statuary in cotton, also replicas of ocean going steamers made of the fleecy staple, fruit, flowers, Indians, lovely panel work of all kinds, Santa Claus and flags, contours of nations and various handiwork showing extreme artistic panel work.

The magnificent panel work in the dome of the main building executed by Miss Ruby Reed Robinson is unsurpassed. The work of G. S. Colman, who is gaining fame the country over, will bring additional laurels. The entire Cotton Palace this year is perfection itself. Chairman C. H. Cox of the decorations committee, and T. P. Duncan of the light committee and their assistants have wrought wonderfully. The artists who have given their full co-operation have just cause to be proud of the execution of the well-laid plans. The multitudes will vote the 1913 Cotton Palace indeed the south's most unique exposition.

Superintendent W. T. Murphy of the livestock division reports more entries than can possibly be accommodated. Messrs. Wesley Mann and Harry White have been named as his assistants, and thus the department named will be in the very best of hands.

Chairman C. H. Cox of the decorations committee stated that he would be pleased to co-operate with any one towards advising them where to secure the services of expert decorators in the matter of preparing floats for the various parades.

**Tea Garden Attractive.**  
The Japanese tea garden is going to be the most attractive feature of this fall. Young ladies in native Japanese costume will dispense hot tea to the visitors at a very slight cost.

Chairman W. W. Pryor of the ticket committee reported yesterday's sales at \$1,250.50 a record-breaker, and advised that the office would be open until 7 o'clock tonight to accommodate the tremendous demand which has arisen. All reserved seats are sold, but eight, so it behooves any one desiring to secure reserved seats in addition to the season tickets to get in line in a hurry. The boxes are all sold.

At no time in the history of the Cotton Palace was enthusiasm greater, and with the many new features this fall, with fair weather, there will be an attendance far exceeding all previous records.

**Women's Day Postal Cards.**  
There are plenty of Women's Day postal cards for any ladies desiring same. They can be procured free of charge at the principal stores and at the publicity department at the Adams hotel.

**Baby Show Monday.**  
Interest in the baby show on Monday afternoon is growing daily. Only one grown person will be admitted with each baby on the floor where the judging occurs, as there is sufficient to be such an enormous array of babies that there will not be sufficient room for more than one grown-up to each entry.

## WANT \$800 FOR GOOD ROADS

Campaign Will Be Launched in Few Days by Y. M. B. L.—J. W. Cocke Is Chairman.

A campaign to raise \$800 for dragging the roads leading into Waco will be started in a few days by the good roads committee of the Young Men's Business league.

On account of the good roads days appointed by the governor being in conflict with the Cotton Palace dates, it has been decided to relinquish the idea of putting a large number of men to work on the roads at that time. J. W. Cocke, who is chairman of the committee, stated yesterday that it was considered better policy to raise money for dragging purposes, as this in the end will be more beneficial to the highways. Every member of the business organizations of the city, as well as the members of the auto club, will be asked to donate to the cause. The other members of the committee are Bart Moore Jr. and George S. Magee.

**Burned by Live Wire.**

A. J. Hoherd of this city received news yesterday that his brother, George Hoherd, of Temple, had been seriously burned by a live wire, which wrapped about his body and threw him from the seat of a horse wagon which he was driving. Hoherd, who is a regular member of the Temple fire department, was driving the wagon past a burning pole when the wire fell across the street and threw him to the ground, inflicting severe burns.

**Arouses the Liver and Purifies the Blood.**

The old standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, arouses the liver to action, drives malaria out of the blood and builds up the system. For adults

## WHY USE PICTURES

H. M. BAINE DISCUSSES VALUE  
OF ILLUSTRATING COMMERCIAL ADVERTISEMENTS.

New Members Elected by the Waco Ad Club—Going After Fake Advertising Mediums.

Harry M. Baine made his debut as a lecturer last night, speaking to an audience of nearly half a hundred members of the Waco Ad Club at the regular meeting held in the dining hall of the Y. M. C. A. And despite the fact that the lecture was called upon on short notice to deliver a talk with a phase of advertising with which only the advertisers and ad writers in the largest cities of the country have to do, Mr. Baine succeeded in attracting the interest of the ad men at the beginning and holding it to the end of the lecture.

**The Advertiser's View.**  
"Commercial art from the advertiser's standpoint" was the title of the technical article, which the speaker took as his text. The article was written by C. B. Nash, a Pittsburgh advertiser. It concerned chiefly the relationship of photography to advertising.

Mr. Baine passed over those parts of the written lecture which were obviously of no special interest to his audience, substituting his own crisp explanations of the argument and purport of these sections. The article is the first of the regular series in the course which has been contracted for by the club.

**Why the Illustrated Ad.**  
"Why do we illustrate our advertisements?" was the query with which the lecture began. Still the speaker had to do with the different varieties of illustrations used in newspaper and magazine advertisements, a description of the different types of printed pictures, such as half-tones, etchings, pen and wash drawings, crayon sketches and wash drawings, being given. While Mr. Baine discussed appropriate slides were handled by J. E. Kuykendall, specimens of the pictures under discussion being projected on a screen.

The speaker was liberally applauded at the close of his lecture.

**To Hear Murray and McCollum.**  
It was announced that the speakers at the meeting will be J. D. Murray and A. R. McCollum, who will discuss advertising from the newspaper man's point of view.

Preceding the lecture the usual social session and luncheon was held with President W. J. Mitchell in the chair. The president presented to the club for ratification the action taken by the board of directors in several matters of business. All of the business matters were presented in the form of resolutions and all were adopted. The club voted to reduce the initiation fee from \$5 to \$1 from this time until after the next annual convention of the Associated Ad Clubs of America is held in Toronto, the object being to increase the membership to 500, in accordance with a project outlined at a recent meeting.

**New Members Elected.**  
The following new members were proposed and elected: A. C. Johnson, C. Carlock and H. H. Cockroft. President Mitchell announced the election of G. W. Barnett to serve on the educational committee of the club and the election of J. E. Kuykendall as a member of the board of directors to succeed E. R. Smith, resigned, who had moved from the city.

The committee to look into ordinance matters relative to the purpose of the Ad Men's Club to eliminate fake advertising was announced as follows: Dr. W. B. Georgia, chairman; C. H. Cox, T. H. Jackson and President Mitchell. On motion of A. C. Patton a vote of thanks was tendered to W. W. Seley, proprietor of the State House, for courtesies extended on the occasion of the recent testimonial banquet to President Mitchell.

## WANDERLIP AND HILL SOUND WARNING NOTE

Continued from Page 1.

holdings are combined in the hands of an active selling or developing concern. These are of varying degrees of soundness; from the bond with property behind it that would fetch face value at a forced sale at any time, to non-speculative pledges of a future realization of increment that is little better than a guess. Finally there is the enormous mass, recorded locally and beyond any reliable estimate in amount of bonds that are not, in view of the flimsy or inefficient security behind them, entitled to be called bonds at all." Changing his criticism of bonds, he said:

**Formerly Limit Was Actual Value.**  
"Formerly and always in any properly financed undertaking, the limit of a bond issue is the total cash value of tangible property in possession; not its value for the uses to which it is being or is to be put, but its value as an asset for immediate conversion by forced sale at any time into cash. Under this rule the investor might feel that the record of a future realization of increment that is little better than a guess, finally there is the enormous mass, recorded locally and beyond any reliable estimate in amount of bonds that are not, in view of the flimsy or inefficient security behind them, entitled to be called bonds at all."

Changing his criticism of bonds, he said: "Formerly and always in any properly financed undertaking, the limit of a bond issue is the total cash value of tangible property in possession; not its value for the uses to which it is being or is to be put, but its value as an asset for immediate conversion by forced sale at any time into cash. Under this rule the investor might feel that the record of a future realization of increment that is little better than a guess, finally there is the enormous mass, recorded locally and beyond any reliable estimate in amount of bonds that are not, in view of the flimsy or inefficient security behind them, entitled to be called bonds at all."

Criticism or even a proper understanding of the situation calls for discrimination between the classes in which bonds are divided. First are those of public bodies—the government, states, counties, cities and sometimes villages. Here a frightful inflation is going on. An old fashioned public adversary to debt still holds the nation and, to some extent, the states in check; though many of the latter evade it by marketing

# OPEN TO THE PUBLIC

For inspection today, the New Residential Park of Waco, Cameron Park Terrace.

When the owner, Mr. John F. Rowe, secured this property he conceived the idea of making it something that the people of Waco would always be proud of, though it would cost thousands of dollars to accomplish his purpose and make his dreams come true.

It took a man of his calibre and civic pride to realize what could be done, with the expenditure of time and money, and he has spared neither in adding the latest high-class improvements to the already natural beauty of the property, at the same time keeping it as near as possible as nature left it.

The city was fortunate that the right man secured this property and developed it according to his advanced ideas of civic attractiveness, otherwise Waco would have lost a picturesque residential spot, which is being appreciated more and more every day. As time rolls on Cameron Park Terrace will be considered as great an attraction as Cameron Park is today. Cameron Park Terrace having park frontage on two sides, which will make it always an exclusive, restricted home spot, with the park as your lawn and as a playground for your children.

Visit Cameron Park Terrace today or Sunday. See the new modern improvements made and under way, which include cement sidewalks, cement curbing, rock macadamized streets, city water mains, sewers, gas and lights, in fact every known modern city convenience.

Cameron Park Terrace is inside city property, located on Herring avenue, North 5th and North 6th streets, just one block from North 5th street entrance to Cameron Park, on the best car line in the city, the North 5th street car line.

You can secure one of these exclusive home sites, with all improvements, for less money than you can buy unattractive bare lots. Easy terms—payments only 2 1/2 per cent per month. Callahan Development Co., 118 North 5th Street.

certificates of indebtedness which differ from bonds only in the shorter time they have to run and the inferior weight of the sanction behind them.

**Railroad Bonds Safest.**

"Without undue preference to interest which most of my active life has been given, I think I may say that the railroad bonds of this country as a rule have remained faithful to their trust."

The remaining class of bonds, those of public utilities require no separate discussion. Water bonds in most cases stand on the same footing as those of the municipality; gas and electric light bonds are simply a special form of industrial; while street railway bonds resemble those of the steam railways, except that generally a mere franchise instead of an ownership of property is the main guarantee behind them.

"This country is water-logged with the bonds. Confidence cannot be restored until the name 'bond' has won back something of its old standard. And that cannot happen until issues are limited by moderation, conformed to the value of the securities and confined to the margin of safety and the form of credit for which the bond was originally designed."

"There would be little need for blue-sky laws if all who engage in your business were bound to a code, both moral and legal, to stamp out not only the obviously wild cat security, but every other that has a surplus of prospectus and a deficit of live assets behind it. The investment market cannot know a prosperous activity except by feverish starts to be followed by still more pronounced reactions until the immutable laws of credit

have been generally recognized and respected."

In the beginning of his address, Mr. Hill said among other things:

"Less than a year's subsistence stands between man and starvation. That is the measure of his accumulations. Six and a half bushels of wheat per capita is a low estimate for consumption and seed. The 97,000,000 people living, according to the census estimate, in the United States in 1913, would require 630,500,000 bushels to keep their stomachs and fields in condition for a year. That is a little less than the crop of 1911 and a little more than the crop of 1912. Subtract our total exports of domestic wheat and flour for the last three years from our total wheat production and the average surplus retained for home consumption is less than 600,000,000 bushels per annum."

"What is true of our bread supply is more than true of most other necessities that we consume and produce. We could live for a few months only on our savings. Immense as seems the total of accumulated wealth, most of it is not available for consumption. Even the income from it must be transformed into things to eat and drink and we are tools to work with; into capital for future production without which not only the machinery of industry but the human machine itself would presently cease to operate and a dead world would remain the monument of defeat in that economic battle which man has waged with nature from the beginning."

**NEGRO HELD FOR THEFT.**

**Policeman Harbour Captures Him on Bridge After a Chase.**

Phil Calvert, a negro, charged with theft on the complaint of a negro woman, who claims that he carried off a purse and \$18 which she left on a North Fifth street car, was arrested at Bosque bridge yesterday afternoon by Patrolman Ivan Harkness, who pursued the negro in the patrol wagon.

The woman, Bettie Holloway, came into the traction company office yesterday afternoon about 4 o'clock, with the complaint that she had left her pocketbook on the North Fifth street car a few minutes before. When the car returned the conductor and motorman were questioned and remembered seeing a negro get off at the end of the line and smuggle something under his coat. The police were notified, and after a description of the man had been obtained he was pursued by Officer Harbour in the patrol wagon and captured about four miles beyond the city limits.

**HORSE HAS HYDROPHOBIA.**

**Animal Attempts to Bite Several at Marlin.**

Marlin, Oct. 30.—A horse supposed to have been suffering from hydrophobia was killed last night by City Marshal Arnett after it had attacked two men and came very near biting both. The animal was the property of a negro woman, who led it to town in search of a "horse doctor." At the rear of Thompson's stable Lon Boone and Wiley Davis attempted to examine the horse and it attacked them, taking hold of Boone's apron and tearing it. The animal then fell in a fit to the ground, biting itself and burying its teeth in the ground.

Neither Boone nor Davis were hurt in any way, although they admit that they were frightened at the attack because of the fear of hydrophobia. It is thought that one of the many mad dogs killed here must have bitten the horse.

## MILITIA IS ON GUARD

HELD READY TO PREVENT OUT-  
BREAKS BY STRIKING  
MINERS.

No Arms in Evidence at Ludlow, but  
Many Taken From Other  
Sections.

Trinidad, Colo., Oct. 30.—Apprehension of outbreaks between striking miners and mine guards, accentuated by an attack upon the strikers' colony at Aguilar this morning, caused Adjutant General Chase, in command of the Colorado National guard, encamped here, to hold the entire command in the military camp today. Frequent trips of investigation were made by troops and a squad of cavalry was ordered from Walsenburg to Aguilar, where an outbreak appeared probable. Strikers at Aguilar demanded the protection of the state troops after soldiers deprived them of many guns.

The detachment of artillery today was gotten in readiness for instant removal to any part of the strike zone and took a drill trip toward Ludlow, the most active strikers' camp in the district. No arms were in evidence there today, but none has been surrendered to state troops, though surrendered guns and ammunition from other sections of the strike zone are arriving by the wagon load. Later today information was received at the Del Agua camp that it would be assaulted before morning. The mine guards deserted the camp, leaving only a few non-union miners to defend it.

A metal box to serve as a pocket has been patented by a Virginia inventor to be carried inside men's stiff hats.

At a voltage of 78,000 a Swedish hydroelectric company will transmit 150,000 horsepower a distance of 150 miles.

## "CASCARETS" CLEANSE LIVER AND BOWELS

FEEL BULLY! NO HEADACHE,  
SOUR STOMACH, BAD BREATH,  
CONSTIPATION.

Get a 10-cent box now.

Are you keeping your liver, stomach and bowels clean, pure and fresh with Cascarets—or merely forcing a passage every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry out of the system the constipated waste matter and poison in the bowels.

No odds how sick, headachy, bilious and constipated you feel, a Cascaret tonight will straighten you out by morning. They work while you sleep. A 10-cent box from your druggist will keep your head clear, stomach sweet and your liver and bowels regular for months. Don't forget the children—their little insides need a gentle cleansing, too.

(Advertisement.)

**Real Estate For Sale.**

If you are looking for some good safe investments the following listings should appeal to you. If nothing in this column seems to suit you, call on us, for this is only a few of the many propositions we have to offer.

**Austin Avenue Home**—Lot 100x165 feet, planned and constructed for a home, and as it is convenient and artistic as money and skilled workmanship could make. Beautiful lawn and rose garden. **DO NOT WAIT FOR THE RUSH.**  
It is sure to come. All indications point to this. Prices in Waco real estate will soar. The time to investigate and buy is now, now, before the public realizes that Waco is growing and building up.

Princess Place is in the direct line of Waco's greatest and best growth. The most conservative men in every walk of life admit that the modern improvements that are being installed within a few blocks of Princess Place and where lots sell from \$700 to \$1,100 each are bound to increase the value of the adjoining properties.

The car line running every twenty minutes night and day within easy walking distances will encourage quick building. Come and see the sixteen new homes already built close by. Come and see how Waco is growing. There is no doubt that Princess Place is the best buy in Waco for the money. Our prices, \$150 to \$250.

Month without interest; no taxes. Waco is growing. Are you going to wait and pay later for the profit?

## GRAY & SMITH GROCERS

### WAITING FOR THE GAS MAN

Grantees of the Stough Franchise Have Only Six Days to Take it Up.

G. W. Stough of Kansas City, who was to begin work by November 6 on the gas line from Waco to Mexico, has not been seen in Waco for the past few weeks, and no preparations have been made, so far as can be ascertained, toward commencing operations.

This means that the franchise granted Mr. Stough has only six days more in which to comply with the conditions on which the franchise was granted, and that unless work is commenced in the specified time, the franchise will be forfeited.

This does not mean, however, that the gas line from Waco to Mexico will fail. Mayor T. F. Smith of Mexico is anxious to take up the proposition, and has signified his intention of doing so in case the Kansas City promoters let their franchise lapse.

NOTICE.

Wells Fargo Express Co. will hold their Waco annual Old Horse Sale, 209 S. 4th St. Friday, Oct. 31.

## TO REPORT ON SEWER PROBLEM

FOSTER AND BYERS RETURN FROM TOUR OF INSPECTION WITH IDEAS.

### TELL OF SITUATION IN DALLAS

Sewage Is Pumped From the Basements of Some of the Largest Buildings in Dallas.

That some of the principal buildings of Dallas are lifting the sewage from their basements by pumping and that this has occasioned no impairment to health or injury to the sewer pipes was the statement of Engineer George Byers and Street Commissioner J. W. Foster, who returned yesterday from Dallas and Fort Worth.

They went to those cities on instructions from the city commission to determine in what manner Dallas and Fort Worth are meeting the demand for sewerage, to serve first basements of large buildings. This information is desired that some solution may be worked out by which Waco can install deep sewers to take care of basements of buildings now under construction, wherein the basements are below the present sewer mains.

**Pumping Sewage.** According to their statement the Adolphus hotel building and the Commonwealth bank, Southwestern Life Insurance and Busch office buildings all are pumping the sewage up to a level with the sewer mains. They were taken for a trip of inspection by the city plumbing inspector of Dallas through the basement of the Adolphus hotel building and were shown in what manner the pumping plant worked. "There was absolutely no odor from the plant and everything was sanitary and working without a hitch," said Mr. Byers.

Every effort is made, however, by the city of Dallas to furnish sewers deep enough to care for drainage and this is done wherever possible, they state. In some instances it has not been found practicable, and in those instances the lifting plant is being used to advantage.

**Owners Pay One-Half.** "Where a deep sewer is badly needed, in some instances, the building requiring the extra depth of the main has contributed half of the expense of installing the sewer," said Commissioner Foster. "This was true of the Wilson building in Dallas, where a deep sewer main was run two blocks, the owners of the building paying half the cost."

The engineer and commissioner will probably make a written report to the

commission, embodying their findings as they relate to the situation in Waco. They may later go to San Antonio and Houston on the same mission.

**A Source of Revenue.** "Another thing I found out," said Mr. Foster, "was that the city of Dallas is charging for all space used by any building in the street. That is, a charge of 40c per cubic foot per year is made for all space used on the sidewalk or street outside the property line. This applies to every entrance by way of the sidewalk except for coal holes, and openings in the sidewalks leading to storage houses."

This information is in line with Commissioner Foster's statement at a commission meeting a few days ago that the Amicable building and the Young Men's Christian association building were occupying part of the sidewalks with staircases. Whether he will bring the question up before the commission he did not state.

### CAVITT HERE WITH PONIES

He Will Rehearse Participants in the "Pony Cavalcade," a Cotton Palace Feature.

Joe F. Cavitt of McGregor will be in the city this morning with thirty-five Shetland ponies, completing preparations for the drill by the pony cavalcade which will be one of the features of opening day at the Cotton Palace.

The ponies will be ridden by two dozen school children from McGregor, twelve boys and twelve girls. The tactics will be the same as those followed in the United States army. The pony cavalcade is the feature of the recent Confederate reunion held at McGregor. Witnesses of the drill say that it is a most unique spectacle, the twenty-four youngsters mounted on their vari-colored ponies making a spirited exhibition in the precision with which they execute their maneuvers.

#### The Participants.

The children taking part in the drill are as follows: Girls—Francis Montgomery, Freda Rathman, Ola Cunningham, Fay Dowls, Doris Moorehead, Helen Legg, Elsie Walker, Vada Spangler, Clara Bradshaw, Deedie Caulfield, Clara Bewley and Jeanette Pool. Boys—Wm. Farper, Warren Babb, Frank Smith, Olney Fuller, Garland Spangler, J. T. Hamilton, Dick Brown, Bob Connally, Lloyd Grantham, Graham Connally, Ben Brown and Volney Cavitt.

### ANIMAL SHOW HAS ARRIVED

Patterson's Wild Beasts at Cotton Palace—Public May See Animals Fed Today.

Children who will go to the carnival grounds at the Cotton Palace this afternoon about 3 o'clock will see the feeding of the animals.

The Great Patterson shows which will be the carnival attractions during the two weeks of the Texas Cotton Palace, arrived yesterday. The shows travel in a train of twenty-five cars, and include twenty separate paid attractions.

**Second Season at Cotton Palace.** This is the second year that the Patterson shows have been at the Cotton Palace, but for fifteen years Mr. Patterson has been catering to the public in Texas. He was the entertainer for several years at the No-Ten-On at Houston, and now he makes an annual visit to Waco before going into winter quarters.

The show train reached here yesterday and during the day it was "moving time" for the wagons, the horses, the animals and the great tents which will comprise the warren. Nearly all the attractions were up by nightfall, and today they will begin to get settled for the opening day.

#### Visitors Welcomed.

There is much of interest at the carnival grounds while the attractions are being gotten in order and Mr. Patterson stated yesterday that he would be glad to have visitors at the grounds all during the day. He says that at 3 o'clock the animals will be fed and that he will give the children a cordial welcome if they come to the grounds to see the sights.

Mr. Patterson carries only a lot of clean shows. He does not carry anything questionable.

### SEEKS "MINISTERING ANGEL"

Father of Ill-fated Tom Gill Would Express Gratitude to His Boy's Comforter.

Alex Gill of Chalk Bluff, father of the young man who was the victim of the fatal automobile accident several days ago, was in the city Wednesday. He called on several friends while here and expressed his deep gratitude to those who endeavored to be of service to his boy in his last hours.

"I want to know the name of the lady who put a pillow under my boy's head," said Mr. Gill. "I am told that when the accident occurred and the injured boy was lying on the grass near the scene of the collision, some lady of the neighborhood brought a pillow from her home and sought to make him comfortable. I am anxious to know her name. I want to thank her for this attention."

#### FALL TENNIS TOURNAMENT.

Second Day's Play Is Full of Action. First Round Completed.

The second day of the fall tennis tournament at Baylor university proved just as interesting as the first, and more spirited playing characterized the contests in singles at Minglewood park yesterday afternoon. This completed the first round and the second round will be taken up this afternoon, paying the best of the probable beginning of the doubles tournament.

Yesterday's scores: Murrell defeated Porter, 8-6, 8-1; Bernard defeated Christian, 6-2, 6-2; Barrett defeated Belov, 6-2, 6-1; Brown defeated Crawford, 2-6, 7-5, 6-4; Moore defeated Robertson, 6-2, 6-4, and Caskey defeated Taylor, 6-2, 6-1.

**Amicable Assessed at \$682,570.** The Amicable building is valued at \$498,630, according to the Homers rating for this year, the land on which it stands being valued \$183,940. This makes the total valuation \$682,570, an increase of approximately \$50,000 over last year's valuation.

## CHIEF MARSHAL NAMES HIS AIDES

FLEMING SELECTS CONSTABLE LESLIE STEGALL AS HIS FIRST ASSISTANT.

### PLAN OF BIG PARADE OUTLINED

Sheriff and His Staff Members Meet and Agree Upon Methods for Handling the Pageants.

Sheriff S. S. Fleming, who is to be in charge of all parades as marshal during the Cotton Palace, has outlined plans under which the parades will be conducted and has announced the aides who will assist him in handling the parades.

He has named Constable Leslie Stegall as first assistant, and has named

SHERIFF S. S. FLEMING Marshal of all parades during the Cotton Palace.

the following as members of the parade marshals' force: W. E. Carey, E. P. Hobbs, A. Tobias, L. Sullenberger, J. G. Cook, S. L. Hume, E. H. Smith, B. R. Goldberg, John Dixon, Tom De Cardova, J. M. Morgan, W. H. Smith, C. A. Beckman and Joe Roberts.

#### In General Supervision.

The sheriff and his aides will be mounted and will have general supervision over all parades, Sheriff Fleming called a meeting of the men who will assist him last night, and discussed plans for handling the parades.

CONSTABLE LESLIE STEGALL First assistant to marshal of parades.

ing called a meeting of the men who will assist him last night, and discussed plans for handling the parades.

In regard to preparations Mr. Fleming said yesterday: "I will detail a man to each department of the parade, and will expect him to look after his particular part of the procession. It is the hope of myself and those who will assist me that in forming the parade that every one who will take part pay as strict attention to the instructions given them as possible."

#### Much Be Prompt.

"The principal thing I believe is to have the line of parade formed on time and for this reason I will ask that all who will take part in any of the parades reach the place where formation is to be made at least an hour before the parade hour. This will enable us to form the line of march without confusion and in such a manner that will be most attractive."

"For instance, the principal parade of the Cotton Palace will be on Saturday night at 8:30 o'clock, the evening of the opening day. To properly classify the marchers and the vehicles it will be necessary for all to assemble at least an hour before 8:30, therefore I ask that all persons who will take part in this parade assemble at Sixth and Franklin streets at 5:30 o'clock."

As outlined the grand parade on Saturday evening will form at Sixth

#### Order of Formation.

The order of parade has also been announced by Mr. Fleming. This will be as follows:

Platoon of mounted police. Alessandri's band. Military company. Governor O. B. Colquitt and others in carriage. Mayor James H. Mackey and others in carriage. Governor's staff. Governor's party. Cotton Palace directors. City commissioners. County commissioners. Mayor band. Fire department.

Following the fire department will come the citizens generally in auto, buggy and other vehicles and on horseback.

Mr. Fleming is issuing a general call to all persons to participate in the parade and make the pageant as representative of the city and the occasion as possible. To this end he requests that as many buggies, autos and other vehicles take part in the parade as possible. Also an especial invitation is extended to the business institutions to be represented with floats as a part of the line.

#### Route of Parade.

"The line of march has been made so as to place the fire department just behind the Mayor band and just in front of vehicles," said Mr. Fleming. "This is with a view of assembling all apparatuses of the department, that they may present a better display. We are proud of our fire department and of the fire fighting machines which the city owns, and I want to assemble them to the best advantage. Another thing is to have these apparatuses so placed that in the event of a fire call they can turn out at the center of the parade without breaking up the line, and at the same time not at the rear of the line, where some might not view them."

Mr. Fleming requests that any one desiring information as to any of the parades during the exposition or information about anything within his department call either him or Mr. Stegall.

## SANGER STOREITORIAL

MRS. PANKHURST SAID

In her first address, in New York, the other night, "The whole British government is an elaborate arrangement of how not to do anything."

If Mrs. Pankhurst were to visit Waco today, she would find an interesting contrast to the situation that she claims of her own country. For with the Cotton Palace opening but twenty-four hours away the entire citizenship of this city is composed into an elaborate arrangement of how to do any and everything that will tend to make the 1913 Cotton Palace—every day of the exposition—a huge success. A striking reverse of what she charges the British government with doing.

And what is true of co-operation in Waco generally speaking, is also true of the Sanger Store. Here you will find four hundred and more people—not working for Sanger Brothers—but working with them to make doubly emphatic the store's slogan and policy, "The Public Be Pleased." Four hundred and more people striving to make the Sanger Store service just a little more perfect, just a little more a convenience and a pleasure for its patrons than that of any other store. Four hundred people who feel that they are not merely here to take your money, wrap your packages and turn to the next customer, but four hundred people who are pleasant and accommodating, who will quickly furnish you with any information regarding the store, the city, the interurban cars, the trains, or tell you where the information may be had—and they will do it cheerfully and willingly. You are as welcome here when you come to wait for your car, use our telephones, check your packages or to utilize any of the many conveniences for which there is no charge, as you are when you come to buy.

**Sanger Brothers**

## Attractive Items For Today's Selling

On Our Second Floor

### Women's Bath Robes

Everything wanted in Bath Robes you will find in our assortment—Blanket Robes, French Flannel, Flannelette, Challie, Albatross; also beautiful Crepe de Chine. Priced at \$2.95 to \$50.00

## THE FAMOUS \$50,000 PAINTING "LA FORGE," OR "THE CHAINMAKER," A WONDERFUL MASTERPIECE OF SHADOWS AND LIGHTS, ON DISPLAY IN SANGER BROS. EXHIBIT AT THE COTTON PALACE.

In order that we might present to the visitors at the Cotton Palace something that has never before been seen in this part of the country and in fact, something that has only been in America for a few months, we have gone to the expense and effort of bringing here for the Sanger Brothers display, in addition to our splendid exhibit of Fashionable Merchandise, the famous painting of the immortal De Mareau—the original "La Forge," or "The Chainmaker." De Mareau's first great achievement was the famous "Village Blacksmith" painting, but the great art critics agree that "La Forge" is a still greater achievement, because besides the firelight and daylight that the "Village Blacksmith" painting brings out so perfectly, in this picture there are three separate and distinct lights, reflecting upon every object in the smithy, as well as upon the brawny workman, who is pumping the bellows and blowing up the blaze of fire, which seems fairly to glow in his face and arms.

De Mareau's life to himself, because of drink, was a failure, but the world today is enjoying the beauty of his handiwork after he is dead twenty years, and his family, who at the time of his death, were in the most dire need for the common necessities of life, have been made independent through the sale of the art treasure's he left behind. His other masterpieces are still in the Luxembourg Palace, Paris. "La Forge" was brought to America about two months ago.

THIS WONDERFUL MASTERPIECE WILL BE ON EXHIBITION IN THE SANGER DISPLAY SECTION AT THE COTTON PALACE DURING THE ENTIRE TERM OF THE COTTON PALACE EXPOSITION.

THE INTERURBAN AND ALL WACO STREET CARS COME HERE DIRECT.

**Sanger Brothers**

OUR POLICY "THE PUBLIC BE PLEASED"

gall over the phone or call upon them personally.

#### Numerous Pageants.

While the parade on Saturday evening of the opening day will be the biggest event of that kind during the exposition, with the possible exception of Woman's Day parade, there will be a number of other parades. In fact Mr. Fleming is preparing to have his force of marshals meet trains where towns sent large delegations to the Cotton Palace and accompany them on any march they might care to make through the streets.

There are six parades provided for in the official program in which Sheriff Fleming and his assistants will take part. These are, the first Saturday afternoon at 6:30; Tuesday, November 4, at 1:30 o'clock when the civil parade takes place; Saturday, November 8, Traveling Men's parade at 10 a. m., and Woman's Day parade at 2 p. m. of the same day; Wednesday, November 12 and also Thursday, November 13.
